Office Hours: Tuesday and Thursday 10:00-11:00 a.m., or by appointment

Seminars focusing on research in area of psychology. The specific research topic in each section of the class will be determined by the individual class instructor. Students will conduct collaborative research projects in the designated research area. Prerequisite: PSY 207 or BIO 210. This is a 4-credit hour course in which we will meet in the classroom for 3 hours each week. The additional credit hour will allow for course readings to be completed before class. This course will also involve projects, reading assignments and studying to be completed outside of class time.

Learning Goals: Students will continue to work on American Psychological Association Learning Goals 2, 3, and 4. Students will be able to weigh evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinnings of psychology as a discipline—Learning Goal 5 of the American Psychological Association Guidelines for the Undergraduate Psychology Major (2006)

- ❖ Every student will use APA style and research sources to write or co-author a research paper that is at least 15 pages long
- ❖ Every student will participate in an oral presentation for at least 15 minutes
- ❖ Every student will be expected to critique and discuss research articles
- ❖ Every student will design projects
- ❖ Every student will be strongly encouraged to submit to give a presentation or poster presentation at an internal and/or external conference about their research
- ❖ Every student will spend time exploring her career goals

REQUIRED READING MATERIAL

Reading Assignments: All readings will be posted on Moodle.

CLASS COMPONENTS

Methods of Evaluation:

Participation Points

Over the course of the semester, there will be 27 class meetings. You can earn 3 points for each class in which you attend and actively participate. I reserve the right to deduct points if your behavior is not conducive to a group learning environment. You can miss two classes without losing any points from the total. You can earn up to 6 extra points on towards your final total.

Student Led Discussion

You will lead a portion of class discussion. You will prepare 5-7 discussion points based on our class readings and the papers you read as part of your literature search. You will lead the discussion for a 15 minute period on a designated date. More details will come in class.

Rough Draft of C.V.

On the designated class day, you will hand in a rough draft of your Curriculum Vitae. More details will come in class.

Final Draft of C.V.

On the designated class day, you will hand in a final draft of your Curriculum Vitae. More details will come in class.

Research Project: Each student will collect data on one species at the zoo. The data collection will take place with a partner; however, each person will carry out their own project. Every individual is responsible for turning in all of the following independently.

Hypothesis/Hypotheses

You will submit the main hypothesis/hypotheses for your project. More details will come in class.

Research Proposal

You will submit a research proposal that includes a literature review and the proposed methods for your study. More details will come in class.

Oral Presentation

At the end of the semester, you will give a 12-minute PowerPoint presentation on your research study. More details will come in class.

Rough Draft of Poster

You will create a rough draft of a poster of your research study. More details will come in class.

Final Draft of Poster

You will create a final draft of a poster of your research study. More details will come in class.

Final Paper

You will write a final paper draft of your research study, APA style, 6th edition. You will be the first author on the paper, your partner will be the second author, and I will be the third author. More details will come in class.

A letter grade will be deducted for any late assignments. Another letter grade will be deducted for every 24 hours that passes beyond the due date.

LIVING HONORABLY

Everyone has pledged to follow [Agnes Scott College's Honor System](#) as outlined in the student handbook. The following statement on academic honesty comes from the faculty Committee on Academic Standards and Admission of Agnes Scott College (ASC Faculty Meeting Minutes, Attachment 5. May 11, 2012.)

Academic Honesty: The Agnes Scott College honor code embodies an ideal of character, conduct, and citizenship, and is an important part of the College's mission and core identity. This applies especially to academic honesty and integrity. Passing off someone else's work as your own represents intellectual fraud and theft, and violates the core values of our academic community. To be honorable, you should understand not only what counts as academic dishonesty, but also how to avoid engaging in these practices. You should:

- ❖ review each course syllabus for the professor's expectations regarding course work and class attendance.
- ❖ attribute all ideas taken from other sources; this shows respect for other scholars. Plagiarism can include portraying another's work or ideas as your own, buying a paper online and turning it in as if it were your own work, or not citing or improperly citing references on a reference page or within the text of a paper.
- ❖ not falsify or create data and resources or alter a graded work without the prior consent of your professor. This includes making up a reference for a works cited page or making up statistics or facts for academic work.
- ❖ not allow another party to do your work/exam, or submit the same or similar work in more than one course without permission from the course instructors. Cheating also includes taking an exam for another person, looking on another person's exam for answers, using exams from previous classes without permission, or bringing and using unauthorized notes or resources (i.e., electronic, written, or otherwise) during an exam.
- ❖ not facilitate cheating, which can happen when you help another student complete a take home exam, give answers to an exam, talk about an exam with a student who has not taken it, or collaborate with others on work that is supposed to be completed independently.
- ❖ be truthful about the submission of work, which includes the time of submission and the place of submission (e.g., e-mail, online, in a mailbox, to an office, etc.) You should understand that penalties result from dishonest conduct, ranging from failure of the assignment to expulsion from the college. You should speak with your professors if you need clarification about any of these policies.

Modified Pledge

Students pledge that they have completed assignments honestly by attaching the following statement to each test, quiz, paper, overnight assignment, in-class essay, or other work:

I pledge that I have neither given nor received any unauthorized aid on this assignment.

(Signed) _____

OTHER INFORMATION ABOUT THE CLASS

Course Evaluations: Students' feedback about this course is valuable to the professor, the psychology department, and the college administration. Students' comments are taken seriously and the comments are used to improve the course in the future. Students will be asked to complete evaluations of the course at the end of the semester.

Disability Accommodations: Agnes Scott College seeks to provide equal access to its programs, services and activities for people with disabilities. All accommodations for disabilities are authorized through the Office of Academic Advising (please see the contact information listed below to complete the registration process). Once registered, please contact me so we can discuss any specific accommodations needed for this course. Both Academic Advising and the faculty respect students' confidentiality when accommodations are made.
